More than 200 applications supported

- SolidWorks®
- CATIA® (V4-V6)
- Inventor®
- 3ds Max®
- Maya®
- AutoCAD®
- Revit®
- Creo™ Parametric (formerly Pro/ENGINEER)
- NX™
- Solid Edge®
- Cinema 4D®
- LightWave™
- SketchUp™

For a complete list of supported applications visit [www.3dconnexion.co.uk/solutions](http://www.3dconnexion.co.uk/solutions)

Supported Operating Systems

Refer to the product pages on the 3Dconnexion website

Additional Information

- Dimensions (LxWxH): 231mm x 150mm x 58mm 9.1" x 5.9" x 2.3"
- Weight (with cable) 880g / 1.94lb
- Warranty 3 years
- Certifications and registrations CE, FCC (Part 15, Class B), BSMI, CTICK, cUL, GOST, RRL, TUV, VCCI, WEEE, WHQL

# SpacePilot™ Pro

Ultimate 3D Navigation for Power Users

## Design Excellence For Engineers

The challenges for today's CAD-intensive business are many. The demand for more advanced products, a compressed time to market and the focus on more efficient development cycles all place increased performance demands on the CAD professional.

SpacePilot™ Pro is engineered to meet these challenges and to excel in today's most demanding 3D software environments.

# SpacePilot™ Pro

Ultimate 3D Navigation for Power Users

## LCD Workflow Assistant + On-Screen Display

The **color LCD** delivers at-a-glance visibility of function key assignment, e-mail\*, tasks, calendar entries ensuring quick access to important information without interrupting your workflow.

Function Key assignment can also be checked via the **On-Screen Display\*** on your computer screen.

\* Microsoft® Outlook® 2003 or later.

## Powerful Application Control

Five fully customizable, dual-function **Intelligent Function Keys** provide instant access to 10 frequently used commands. SpacePilot™ Pro recognizes the active application and work environment and automatically assigns the appropriate commands. The color LCD and On-Screen Display\* provides visual feedback on function key assignment ensuring an optimized workflow.

## Ultimate Navigation

SpacePilot Pro features 3Dconnexion's patented **six-degrees-of-freedom (6DoF)** sensor technology. Gently push, pull, twist or tilt the compact controller cap to smoothly pan, zoom and rotate 3D models. It's like holding the model in your hand. The **QuickView Navigation Keys** provide fingertip access to 32 views encouraging new levels of model exploration that result in improved error detection and design quality.

## Superior Comfort

The **full-size, soft coated hand rest** positions the hand perfectly for the compact controller cap ensuring precise and effortless control. The most frequently used function keys are conveniently positioned, ensuring a comfortable working experience, even for the longest design sessions.
